Language and Arts <i>Ngôn ngữ và Nghệ thuật</i>	Egg carton beetle * Materials: egg carton (khay đựng trứng bằng bìa), hole puncher, pipe cleaners, brown or black paint, tissue paper. - Before doing this activity, explain to the children that beetles have three body section: a head, thorax (middle) and abdomen (end). The beetle six legs are connected to the thorax. Give each child a piece of egg carton with 3 connected compartments like a bug. - Encourage children to paint their egg cartons, then let them dry. Help them punch holes through the middle section of their beetles and put the pipe cleaners through the holes to create legs. Provide tissue paper to make wings. They can draw eyes and use small pipe cleaners to make antennae. Life cycle of a beetle - Name some body parts of a beetle - Learn 4 steps in a beetle's life cycle				
Maths and Science <i>Toán và Khoa học</i>	Insects sorting - Prior to doing this activity, discuss some of the differences between insects and other animals. Talk about how insects have 6 legs and 3 body parts. They wear their skeletons on the outside of their bodies. This hard covering protects the insect and is called an exoskeleton. Some insects have wings and some do not. Some insects have two eyes, some have as many as five. - Provide a collection of picture of many different kinds of animals, including mammals, frogs, snakes, sea creatures, and insects. Encourage the children to identify the creatures and animals and then sort out the insects from the other creatures. Counting bugs in a jar (play this game in groups) - Print and laminate the jar. Print the bugs, laminate them and cut them apart. - Each group of children will have a set of jar and bugs. - They will take turns to roll the die, count the bugs and put them in the jar.

DAILY SCHEDULE FOR PRE 3 BILINGUAL CLASS/LỊCH HỌC LỚP SONG NGỮ ĐẠI

PRE 3 BI - Week 1/Tuần 1

Unit: All about the Moon	Mon/Thứ 2	Tue/Thứ 3	Wed/Thứ 4	Thu/Thứ 5	Fri/Thứ 6
Morning outdoor activities - Hoạt động ngoài trời buổi sáng					
Morning circle <i>Vòng tròn buổi sáng</i>	Game: Che che koolay + BLAST OFF + Rock scissors paper + Mosquito buzzing game Music & Movement: Shark dance + If you're a kid + Five little monkeys + Farmer in the Dell				
	Poem: The moon and the sun + I'm a little rocket + Five little astronauts Song: Zoom zoom zoom + The solar system song + It is a small world				
	Puppet story: The Sun and The Moon American sign language: clouds + cold + day + down				
Language and Arts <i>Ngôn ngữ và Nghệ thuật</i>	Man in the moon - Show the children a picture of a full moon with its craters resembling a face ("man in the moon"). Ask them if they see "the man in the moon" and have volunteers come up and point out the moon's "facial features". - Give the children paper plates and markers and ask them to draw their own men in the moon (You may want to show a model on the board first). Display their creation.		Dramatic Play Discuss how the moon orbits (circles around) the earth. Ask a child to stand in the center of a circle holding a large ball representing the earth. The other children stand in the circle and pass a smaller ball, representing the moon, from right to left to stimulate the moon's orbit. Ask the children if they could see the entire smaller ball (moon) all of the time. Explain that as the moon moves, its shape seems to change because we cannot see all of it at once. And that these different views of the moon are called "phases".		
Maths and Science <i>Toán và Khoa học</i>	Moonscapes + Materials: photos of the moon, playdough, gray paint, paper plate, toothpicks, small rocks + First we look at photos of the moon and talk about its surface (color, craters, mountains, etc.) Then we make a model moonscape. The children spread playdough onto a paper plate. + Let children use toothpicks for carving and small rocks ("asteroids") to crash into the dough to make craters. We paint them gray and add a mini flag on it.		How astronauts eat pudding in space - Explain that astronauts eat certain foods in space because there is no gravity in space. - Let the children watch the video: NASA astronauts show how to eat pudding in space. - Give each child a resealable sandwich bag. Pour ¼ of a box of instant pudding package. Seal the bags tightly and have the children squeeze and shake them until the pudding thickens. Cut off one corner of each bag and let the children suck the pudding out, just like astronauts.
